A VERY ROAMING YETI DAY IN:

East Aurora NY

East Aurora is the kind of town that surprises you.

You drive in expecting a quick stop and leave planning your return. 84 miles from Rochester, this charming Western New York village has indie shops, a National Historic Landmark, Christmas movie filming locations, and one of the best brunches we've had in a long time.

This is our Roaming Yeti guide to making the most of a day there. Use this as your starting point. Leave room for the side quests.
